

Project Design Phase-II

Technology Stack (Architecture & Stack)

Date	6 October 2026
Team ID	SWTID-2026-6524
Project Name	Auto Ticket Classification using Flow Designer
Maximum Marks	4 Marks

Technical Architecture

The solution uses a ServiceNow-based workflow. A student or staff member creates a ticket. The Incident Workflow table stores the record. Flow Designer evaluates predefined keywords, updates Category and Subcategory, and sends an email confirmation to the caller.

S.No	Component	Description	Technology
1	User Interface	Ticket creation form used by students/staff	ServiceNow form / Incident Workflow
2	Application Logic-1	Ticket record creation and field handling	ServiceNow
3	Application Logic-2	Keyword-based automatic classification	ServiceNow Flow Designer
4	Application Logic-3	Dependent Category/Subcategory behavior	ServiceNow Dictionary / Choice configuration
5	Database	Structured ticket records and fields	ServiceNow platform data store
6	Cloud Database	Cloud-hosted platform data storage	ServiceNow cloud platform
7	File Storage	No separate file-storage component specified	Not used / Not specified
8	External API-1	No external API used in supplied implementation	Not applicable
9	External API-2	No external API used in supplied implementation	Not applicable
10	Machine Learning Model	No ML model; rule/keyword classification is used	Not applicable
11	Infrastructure	Application deployment	ServiceNow cloud platform

Table-2: Application Characteristics

S.No	Characteristics	Description	Technology
1	Open-Source Frameworks	No open-source framework is identified in the supplied project documentation.	Not specified
2	Security Implementations	Authorized access and modification of ticket data are validated.	ServiceNow access controls
3	Scalable Architecture	No-code Flow Designer logic can be extended with additional conditions.	ServiceNow Flow Designer
4	Availability	The application runs within the ServiceNow platform.	ServiceNow platform
5	Performance	Automatic classification and email notification reduce manual processing.	Flow Designer automation

Classification Mapping

Keyword / Issue	Category	Subcategory
WiFi / Network	Network	Wi-Fi
Projector	Hardware	Projector
Password / Login	Access	Forgot Password

Keyword / Issue	Category	Subcategory
Slow / Hanging	Performance	Slow Computer
